**Application for IT or any Available position.**

**Dear Managing Director,**

I am applying for an internship/employment at your office in your IT department. I am a junior developer from the Jasseh Code Camp and also a full stack web developer at the Udemy Inc, an online university in the United States of America.

As for my work experience, I worked as a lead at the Bags Airport Services from 2013 -2015 and Supervisor from 2015-2018, at Prospect Airport Services in the Hartsfield/Jackson International Airport in Atlanta, Georgia, United States of America.

My passion for computers had led me to choose IT as my profession. With the web developing knowledge and skills acquired through my course, I am confident that I will do well in this field.

I am particularly interested in becoming a staff in your IT department as I understand from my research that you strongly emphasize and promote cross-border trade exhibition in your practice. I hope that I can be given a chance to start my career at an office as respected as your own.

Thank you for your time and consideration

Sincerely,

**OUSMAN CEESAY**
